TeamSpirit and Intellinet work to deliver integrated solutions

Telecomworldwire-10 November 2006-
(C)1994-2006 M2 Communications Ltd <http://www.m2.com>

TeamSpirit Software, part of TeamSpirit Holdings Ltd, a provider of HR and payroll software and services, is working with Intellinet, a solutions provider, to deliver integrated HR, payroll and workforce management solutions.

Intellinet provides software which can be linked into TeamSpirit, enabling TeamSpirit to offer a complete end-to-end workforce management system. Data generated by Intellinet applications can be approved and passed into TeamSpirit payroll software, helping to automate the payroll process and negating the requirement for duplicate data entry.

Intellinet provides staff management solutions such as RemotePay, which enables local branch managers to automate HR and payroll tasks including the calculation of salaries, setting up bank details and handling starters and leavers.

TeamSpirit said the partnership with Intellinet enables it to offer a solution to companies with branch networks, which will change HR and payroll operations and help to provide time saving and improved efficiency. Intellinet claimed its work with TeamSpirit will ensure a quick and successful implementation of solutions.
